

JW Marriott Starr Pass rests within the breathtaking Tucson Mountain Park — established on April 11, 1928 and containing approximately 20,000 acres and 62 miles of non-motorized trails. The Tucson Mountains are full of towering saguaro, which can live 200 years, grow to fifty feet tall and weigh more than ten tons. Inside the park, guests may see a variety of wildlife including quail, roadrunners, woodpeckers, flickers, wrens, owls, hawks, desert tortoise, gila monsters, javelinas (wild pigs), kangaroo rats, coyotes and jackrabbits. We invite you to experience the uniqueness of Starr Pass and the magic of the Sonoran Desert inside the Park.

Hiking

From the main resort lobby, facing west into the mountains, Tucson Mountain Park awaits you. Take a right onto the sidewalk and you see the Lorraine Lee Trailhead across the road. The placards are there to give you a hint of the history, the importance and beauty of the trail system you are about to enter. Onward and upward you step over rocks millions of years old, and the serenity encompasses you. You traverse a mountainside filled with Saguaros, Cholla, Prickly Pear cactus, Mesquite, Palo Verde and Acacia: The foods and medicines of individuals long ago. You savor each step, each breath, each vision. Each morning a complimentary professional guide is here to help you experience this journey. You may also join us on Wednesday, Friday or Sunday evening for a sunset hike. You can also partner with your own professional guide to facilitate a custom outing.

Mountain Biking

The JW Marriott Starr Pass Resort & Spa is surrounded by unique vegetation, abundant wildlife, and many miles of trails that will take you deep into the heart of the Tucson Mountains. Your two-wheeled adventure begins just outside the resort. With the help of a

professional guide, you'll learn the basics of your front-suspension mountain bike, then gear up with gloves, helmet and a bottle of water. You'll leave the pavement behind and begin the rewarding experience of mountain biking in the desert. You'll roll past giant saguaro cactus, breathe in the fragrance of blooming creosote, and ride on expertly built trails. Within just a few minutes civilization will feel a thousand miles away, as the desert completely envelops you. Red-tail hawks soar overhead, whiptail lizards race through the underbrush, and javelina are often seen wandering through this ecologically diverse landscape. You can ride for a few miles or a few hours. Fully-guided daily adventures and bike rentals for solo rides are available.

Trail Running

The Tucson Mountain Park has a wide variety of trails which give you an incredible workout while you enjoy the spectacular desert scenery and are able to momentarily escape from civilization. Enjoy an early morning awakening of body, mind and spirit by running on trails and experiencing the desert in a way you never have before.

The paths are quiet; the earth softens with each stride as you surge forward. Details of thought become clearer. Solutions pour forth as you reflect upon the issues before you, miles are passing by and you persist. You take a bottomless breath as the grandeur of nature envelopes you. You are awake, alive.

We provide the map; you supply the will to endure, to excel, to run. Our experience enables us to adapt to your needs and ability. The topography of the region gives you the ability to choose from scenic, relaxed, flat terrain or steep, technical trails.

STARR PASS GOLF

Whether driving from elevated tees on the side of rugged mountains or carrying shots across natural desert washes, golfing at Starr Pass is enhanced by the abundance of Sonoran Desert wildlife and vegetation. You may find yourself waiting for a pack of coyotes to stop howling or a family of deer to cross the fairway. Or perhaps a roadrunner or javelina will make an appearance during your round. You'll have to tear your eyes away from the amazing surroundings to concentrate on your game at hand.

The five sets of tee boxes on the Starr Pass courses provide a fair test for golfers of all abilities. Some prefer the longer more challenging Rattler Course, others find themselves tested by the dramatic elevations of Roadrunner, and some are most happy to play to gentler, more forgiving Coyote Course. The best Starr Pass experience of all, of course, is to play all 27 holes to fully enjoy the amazing Arnold Palmer Signature design and native desert landscape.

Audubon Sanctuary

Starr Pass Golf Course has been a certified Audubon Cooperative Sanctuary member since 2008.

What is the Audubon? The Audubon Cooperative Sanctuary Program for Golf Courses helps golf courses to enhance wildlife habitats and protect natural resources for the benefit of people, wildlife, and the game of golf. The program is designed to give golf course managers the information and guidance they need to implement stewardship projects and receive recognition for their efforts.

The Golf Program is part of the Audubon Cooperative Sanctuary System, a nationwide network of conservation partnerships that includes backyards, schools, corporate and business properties, and golf courses. It is administered by Audubon International, a non-profit environmental organization that spearheads education and conservation assistance programs that promote environmental stewardship and sustainability.

In the Primo garden

Our Fig tree will be bearing it's main crop this fall. The common fig bears a first crop, called the breba crop, in the spring on last season's growth. The second crop is borne in the fall on the new growth and is known as the main crop. The matured "fruit" has a tough peel, often cracking upon ripeness, and exposing the pulp beneath. The interior is a white inner rind containing a seed mass and jelly-like flesh. The edible seeds are numerous and hollow, unless pollinated. Pollinated seeds provide the characteristic nutty taste of dried figs.

Grilled Figs with Goat Cheese

from Executive Chef Melissa Kelly

Ingredients

8 fresh figs
1/2 cup goat cheese, softened
8 grape leaves, drained and rinsed
1/2 cup honey
skewers

Directions

Preheat grill for medium heat. Make a small incision in the bottom of each fig (large enough to hold pastry bag tip). Place goat cheese in pastry bag with plain tip. Fill figs with goat cheese by squeezing a small amount of cheese into the bottom of each fig. The figs will plump up when filled. Wrap each fig with a grape leaf, and skewer 2-3 figs on each skewer. Lightly oil the grill grate. Place fig skewers on hot grill. Cook for 2-3 minutes, turning once. Drizzle with honey, and serve.
