**JW MARRIOTT STARR PASS RESORT & SPA CELEBRATES AWARDS WITH UNLIMITED GOLF**  
*Starr Pass receives "Top 100" honor from Condé Nast Traveler magazine and Greens of Distinction  
Award from Corporate & Incentive Travel magazine*

**Tucson, Arizona (June 22, 2007)** In honor of two prestigious golf awards recently given to JW Marriott Starr Pass Resort & Spa, the property invites guests to book an Unlimited Golf Package and enjoy the ultimate Tucson golf experience.

A readers' poll in the June issue of *Condé Nast Traveler* named Starr Pass one of the Top 100 Golf Resorts of 2007, noting the award-winning course's outstanding design and the staff's excellent service. Meanwhile, the August issue of *Corporate & Incentive Travel* will announce a 2007 Greens of Distinction award. This honor, also bestowed by readers of the magazine, gives Starr Pass high marks for its meeting facilities, overall hospitality, golf staff, course condition and design, and tournament arrangements.

"We are immensely proud of our state-of-the-art golf facilities all year round," said Director of Golf Todd Howard. "Receiving these awards is a terrific acknowledgement of our ongoing efforts to provide personal service and a memorable golf experience."

Starr Pass's Unlimited Golf Package, valid until September 30, offers accommodations in a deluxe guestroom and unlimited rounds of golf during the stay. Summer rates start at just \$199 per night, representing a savings of more than 30 percent off high-season rates.

Located at the foot of Starr Pass Resort & Spa, the 27-hole, Arnold Palmer-designed Starr Pass Golf Club is tucked into the Tucson Mountains and traverses canyons, ravines and desert washes, allowing golfers to escape the city and experience championship golf in lush, Sonoran Desert terrain. JW Marriott Starr Pass Resort & Spa features 575 spacious guest rooms, a full-service spa that draws on the healing properties of the desert and seven dining options. The resort has made a 20-year commitment to preserve the beauty of its locale and the habitat for the area's plants and wildlife, providing 150 acres for the expansion of the Tucson Mountain Park, the natural preserve that surrounds its site.
